KINDLE Unlimited

MONTH:

Are you ready to figure out once and for all if Kindle Unlimited is right for you? Let's get started!.

First, you need to log into Amazon and hover over the button that says "Accounts & Lists' then scroll down to 'your orders'. Once you're directed to your order page, select 'digital orders.' In the drop down menu on this page, select 'last 30 days" and list the titles below, along with the price and if the book is in Kindle Unlimited.

Once you have the sheet filled out check your total spent on non-KU vs KU enrolled and you will know what's best for you.

Not satisfied with one month, try your last six months for a wider range.

⁎Note: if you opt in to my newsletter, I will send you a video tutorial on how to do this!
